Factsheet d.velop smart folder
for SAP ERP

Manage processes clearly in a customisable
folder structure with in SAP GUI

The smart folder for SAP from d.velop automatically provides a clear, consolidated overview for SAP processes such as SD, MM and QM. Using a SAP transaction the user can view the related document flow as well as all corresponding documents from the archive system for a certain SAP document.

With just simple customising, you have immediate access to all documents stored by SAP ArchiveLink also allowing you to access documents from the SAP Document Management System (DMS). The d.velop smart folder solution for SAP ERP is integrated into the generic object service. Documents displayed in the smart folder view are subject to SAP user permissions; users can only see documents the have the permission to.

With d.velop smart folder for SAP ERP, the user can choose between "in-place" viewing within the SAP transaction (such as VA03, ME23n) or viewing in a dedicated window. Likewise, archived documents (in PDF, TIF, FAX, TXT, XML, JPG and GIF formats) can be displayed in the smart folder window.

Furthermore, related documents can be assigned to SAP transaction documents and archived with full revision control and security using drag & drop functionality. The d.velop smart folder for SAP can be configured using the provided "d.velop solution customising" transaction in SAP ERP. The solution d.velop smart folder for SAP ERP is developed in the protected SAP namespace environment of d.velop AG and is provided in the form of external SAP transports.

About d.velop AG

d.velop AG, founded in 1992 and based in Gescher, Germany, develops and markets software for the complete digitization of business processes and industry-specific procedures. In addition to its established ECM portfolio of services relating to document management, archiving and workflows on mobile apps as well as standardized and custom SaaS solutions, the software manufacturer has also expanded to offer managed services. These services include sophisticated compliance management to provide legal certainty and ensure compliance with all statutory regulations.

d.velop helps businesses and organizations reach their full potential by offering digital services that connect people to each other and that simplify and retool procedures and processes.

A strong, global network of around 250 specialized partners ensures that d.velop Enterprise Content Services are available worldwide.

d.velop products – whether on premises, in the cloud or in a hybrid form – are now used by more than 7,900 customers across multiple industries with over 1.8 million users; these customers include Tupperware Germany, eismann Tiefkühl-Heimservice GmbH, Parker Hannifin GmbH, Nobilia, Schmitz Cargobull, FingerHaus GmbH, the city of Wuppertal, Basler Versicherungen, DZ Bank AG, Saarland University Medical Center and Greifswald University Hospital.w
